

Please do not stop any of XM radio services. For some people like me it is the only radio broadcast I can receive. When I go to visit the city, I always use the XM traffic services because they are the most accurate. I feel have accurate traffic information helps me chose the best routes and helps ensure my families safety when we travel. Please do not take away a valuable service that helps citys in America operate in a smooth manner. Thank you George W. Burgess, Very happy XM radio listener!
